District News

From Our Correspondents

BRANT

Mrs. Cohran of Calgary recently spent a week visiting at the home of Mrs. S. R. G. Graham.

Mr. and Mrs. Earl Bateman and Mrs. George Bateman were Calgary visitors for a few days last week.

Yes, we can grow prize potatoes here too. Brant Parker brought a huge potato from his garden into Johns Groceria. The oversized spud tipped the scales at 2 lbs. 5 oz.

The duck hunting season opened Saturday morning with lake north of Brant one of the centres of attraction. By all reports, no one went home empty-handed.

Mrs. Mel Hanson and Mrs. Henry Bateman were Lethbridge visitors last week.

Mr. and Mrs. George Hamilton and family were weekend visitors with Mr. and Mrs. Ben Holden in Calgary.

Mrs. S. C. Dougherty of Edmonton is visiting at the home of her son, Charlie Dougherty.

EASTWAY

Mr. and Mrs. Wm. Bush and son Ward of Whitecourt, B.C., were guests at the home of Mr. and Mrs. Howard Tharle recently. Mrs. Bush was formerly Miss Florence Gold of Vulcan.

Mr. and Mrs. Henry Ernest of Spring Coulee were business visitors in the district last week.

Miss Wilma Sutor of Queens-town is spending the harvest season at the home of her aunt and uncle, Mr. and Mrs. Joe Sutor. Harry Irving spent the weekend with his mother and family at Okotoks.

Mrs. Matt Copeland has been a guest at the home of her parents Mr. and Mrs. R. Mitchell.

Mr. and Mrs. William Houlton had as their guest over the weekend Mr. and Mrs. Mark Houlton and daughter Audrey of Calgary. Leslie McMullen spent the weekend at the home of his grandparents in Okotoks.

Tad Randle of California was a district visitor on Sunday.

Gus Woggie spent several days last week with his wife and daughter in Calgary.

Mr. and Mrs. Joe Marshall have returned from a week's visit at Revelstoke, B.C.

ARMADA

Mrs. Raymond Beagle and sons Gary and Donnie motored to Calgary on Sept. 14, with Mr. L. Herman for two days.

Miss Anna Larson of Calgary, a former resident and school teacher of Armada, is visiting for a few days with her friends in the district.

Miss Margarite Vooy's of Milo spent the weekend of Sept. 14, visiting at the home of Miss Hazel Beagle.

Miss Vera Sesinsky of Lomond left last week for Calgary, where she will attend Henderson Business College.

A resident of Armada for many years while his wife taught school here, George King of Travers passed away in a Lethbridge hospital early this month. Death was caused by a heart attack brought on by a stroke he suffered on Aug. 4th. The deepest sympathy of Armada friends is extended to Mrs. King.

Mrs. A. M. Beagle, Miss Hazel Beagle and Miss Margarite Vooy's motored to Travers on Sunday and spent the day with Mrs. George King.

Harvesting is still at a standstill. There is still considerable combining to be done, as well as some threshing and hauling of feed.

Little Wheat For Export

Little more than 200,000,000 bushels of wheat, including wheat and wheat flour, will be available for export from Canada during the current crop year the Dominion Bureau of Statistics estimates.

With 160,000,000 of this amount earmarked for the United Kingdom under the Anglo-Canadian wheat contract, only "Token" amounts representing the remaining 40,000,000 bushels will be left for shipment to other countries.

The only bright spot in the world wheat picture is the all-time record crop being harvested in the United States this year. At Aug. 1, the total production was estimated at 1,427,700,000 bushels, 272,000,000 bushels above last year's previous record crop of 1,155,700,000 bushels.

A \$500,000 wing will be added to the Holy Cross hospital in Calgary.

ANOTHER SWIMMING RECORD FALLS

Finishing five feet ahead of her nearest competitor, Ann Curtis, U.S. Olympic hope from San Francisco shown as she set a new National Amateur Athletics Union record for the 100-metre free style during qualifying heats at Chicago, Ill. Miss Curtis' time replaced the 1.07.2 mark set by Brenda Healer in 1946. Ann's time was 1.07 flat.

New Zealanders Thank Citizens For Kindness To Airmen

A certificate of thanks, from the people of New Zealand to the citizens of Vulcan, has been received by Mayor W. D. Allan from the Ottawa office of the High Commissioner for the Dominion of New Zealand.

The accompanying letter from the High Commissioner states that the Government and people of New Zealand wish to record their gratitude and extend thanks to the many people who, during the years of the war, rendered service to the war effort by affording friendship and hospitality to those of the eight thousand New Zealand airmen who received their training here under the British Commonwealth Air Training Plan.

The certificate is headed by the coat of arms of the Dominion of New Zealand and reads: "I wish to mark by this personal message to voluntary helpers in clubs and hostels, the appreciation of the service you have rendered to New Zealand during the war years 1939-1946."

The people of New Zealand know that in your work for the comfort and welfare of our men and women overseas you have sacrificed much of your own comfort and leisure.

Many of you have extended generous hospitality and by your friendly welcome have cheered those who were strangers in countries far from their homes.

By your help and sympathy you have not only earned the gratitude of those you served but also that of their families and friends in New Zealand. Your readiness to help has greatly assisted New Zealand in her war effort. I would ask you to accept our heartfelt thanks."

G. FRASER,
Prime Minister.

A.F.A. Asks For Export of Cattle

The Alberta Federation of Agriculture, viewing the consequences of the packing house strike, and the holding of livestock on the farms as a result, has urged Ottawa to arrange immediately for export of cattle, sheep, hogs and sows to United States. Otherwise the producer is going to suffer heavy loss in animals ready for market.

The A.F.A. last week asked the Dominion government to take over operation of all strike-bound plants as an emergency measure, in view of the heavy losses to producers likely to result.

Another suggestion was appointment of a Royal Commission to inquire into the causes of the strike. It is considered that reopening of plants under government auspices, if necessary, is the only means of averting serious losses.

United States is getting worried about the number of folks flying round dropping dry ice and creating rain. They may take steps to curb the rainmakers.

In September, 1939, producers of cream were getting 22 cents a pound for butterfat. Wholesale price of butter was 26½ cents a pound. In September, 1947, producers were getting 63 cents, and the wholesale price was 82 cents. From 100 pounds of butterfat about 118 pounds of butter are made.

Gordon Higginson Gives Advice To Young Athletes

Gordon Higginson, former chief supervisor of recreation for the city of Edmonton, addressed the directors of the Cultural and Athletic Association and many of the young athletes of the town at a meeting in the town office last Saturday evening.

Mr. Higginson, who is coach of the Edmonton Polar Bears provincial and dominion championship track and field team, has been a guest at the home of Mr. and Mrs. Ross Walker.

His very interesting and informative talk dealt mainly with the developing and training of athletes and contained much valuable advice. Mr. Higginson also advised the Association directors on the laying out of a cinder track and other facilities for track and field sports.

Named As Head B.C. Hospital

The Sept. 13 issue of the Zeballos (B.C.) Miner carries the announcement that Dr. D. G. Ulrich has been appointed Medical Director of the Zeballos Hospital. The new hospital at this Vancouver Island mining town will officially open on Oct. 1st and Dr. Ulrich was authorized to purchase all necessary equipment.

Dr. Ulrich, who graduated last year from the University of Alberta, has been interned at the Coast. He is the son of Mr. and Mrs. H. B. Ulrich of Vulcan.

had written a letter of "advice and warning" to the baking industry against any tendency to "fix" prices as a result of the week-end lifting of the price ceiling on bread.

Late hail struck Stettler district on September 12, causing 100% damage to some crops and bringing the peak of the storm to the town.

Defence Dept. Allots Funds To Move Recreation Hall

Word was received on Wednesday by Major C. R. Robson, O.C. "A" Company, The Calgary Highlanders, that the Department of National Defence has allotted the necessary funds for moving the recreation hall at the Vulcan Airport into town to serve as an armory for the local reserve army unit.

This building is very suitable for the needs of the local infantry company, cadets and other organizations. It is expected that further details on this project will be available in a few days.

Pioneer Resident Of Lomond Dies

GEORGE WILLIAM WITTING
A former oldtime resident of the Lomond district, George William Witting of Vulcan passed away on Sunday, Sept. 21, at the home of his daughter, Mrs. H. B. Ulrich. He was 81 years of age and had been in declining health for the past few years.

Born at Sparta, Wisconsin, Mr. Witting married Louise Steiger in 1886. In 1890 they moved to North Dakota, coming to Alberta in 1908 and settling in the Lomond district.

Mr. Witting had been a marshall in North Dakota and took a very keen interest in all public affairs. He had made his home in Vulcan for the past ten years, usually spending the winters at Victoria, and for the past five months, during his illness, had made his home with Mr. and Mrs. Ulrich.

Besides his daughter, he is survived by three sons: Harry, of Nanton; Roy, of Lomond; and Elmer, of Yakk, B.C. There are fourteen grand-children and nineteen great-grandchildren. His elder brother, Charles Witting, still survives, and at the age of 92 is still in good health.

Services were held from the Vulcan United Church on Tuesday, Sept. 23, at 1.30 p.m., with Rev. O. H. Rollis officiating. Snodgrass Funeral Home was in charge of arrangements.

Ottawa scientists are studying 20 types of mosquito, 6 of black fly, 8 of deer fly to figure what method is likeliest to kill them. This is to alleviate some of the discomforts of the north.

Manchuria Similar To Alberta From Agricultural Viewpoint

Soya Beans May Be Suitable Alberta Crop, Says Calgary District Agriculturist

Guest speaker at the Lions Club dinner meeting in the Imperial Hotel Monday evening was C. Graham Anderson, District Agriculturist of Calgary, formerly of Claresholm.

Speaking on the subject "Manchuria and Its Relation to Western Canadian Agriculture," Mr. Anderson not only gave his listeners an insight into the agricultural economy of the Chinese province, but traced the influence of the Japanese occupation before and during the war, and, since the end of hostilities, of the Russians.

He compared the climatic and soil conditions of Manchuria to those of Alberta, stating that the plains of this oldest province in China and the steppes of Siberia were the only other places in the world where No. 1 hard wheat, such as is produced on the Canadian prairies, can be grown. With the Japanese occupation of Manchuria in the 1930's the economy of the province was gradually shifted to the growing of soya beans, which were of greater value to the Japanese in their war effort, with millet taking a secondary place. Some 743 varieties of soya beans were grown in Manchuria, and Mr. Anderson outlined many of the uses to which this plant was put by the Japanese.

Impressing upon his listeners the value of the soya bean, not only as a source of protein-rich food and edible oil, but as raw material for plastics, Mr. Anderson stated that in the recent war Germany had depended upon this plant of a thousand uses to a very great extent and had devoted thousands of acres of land in Germany and Austria to the growing of soya beans. The speaker touched also on the extensive use now being made of soya beans in the States. The soya plant restores nitrogen to the soil and the time is coming when the growing of it or some other similar legume will become necessary in Alberta if fertility is to be restored to the soil. The

Variable Weather Delays Harvest

A total of 154 inches of snow fell last week, according to records kept by Mr. Errett King. Starting Wednesday morning, the snow came down steadily for two days and standing grain was flattened to the ground.

The weather since then has been very erratic, clearing on Saturday, clouding up again on Sunday, clearing again with blue skies and high temperatures on Monday, and again becoming cloudy Tuesday noon, with a light drizzle of rain falling Tuesday afternoon.

With harvesting only two-thirds completed, there is much wheat still laying in the swath and the flax harvest has not yet started. Farmers fear there will be the loss of one or two grades on wheat still unthreshed due to bleaching, and continued wet weather may cause some sprouting to occur.

When field work is resumed about two weeks of good weather will be required to get the remaining harvesting done.

Movement To Reorganize Board of Trade

At a meeting last week attended by a group of local business men and farmers, it was unanimously decided to make every effort to re-organize the Vulcan Board of Trade.

It was the feeling of the meeting that there is a distinct need for such an organization in Vulcan and plans were made to enlist the support of all businessmen and farmers who are interested in the progress of this community.

It is expected that a general reorganization meeting will be held in the near future, when officers will be elected and committees appointed. It is hoped at this time to have a speaker from Calgary who will outline the work of a board of trade.

Britain will not be able to buy canned salmon in 1947, so Canadians will have double the supply available. Britain has been taking 750,000 cases yearly.

search is underway for a variety of soya suitable to Alberta and, although tests are not yet completed, it is believed that such a variety has been found, concluded the speaker.

Value of Sports
Another guest of the Lions Monday evening was Gordon Higginson, coach of the Edmonton Polar Bears track and field team. Mr. Higginson urged the Lions to keep up their good work in helping provide sports facilities for the young people of town, emphasizing the great part that recreational sports can play in developing young people into fine citizens.

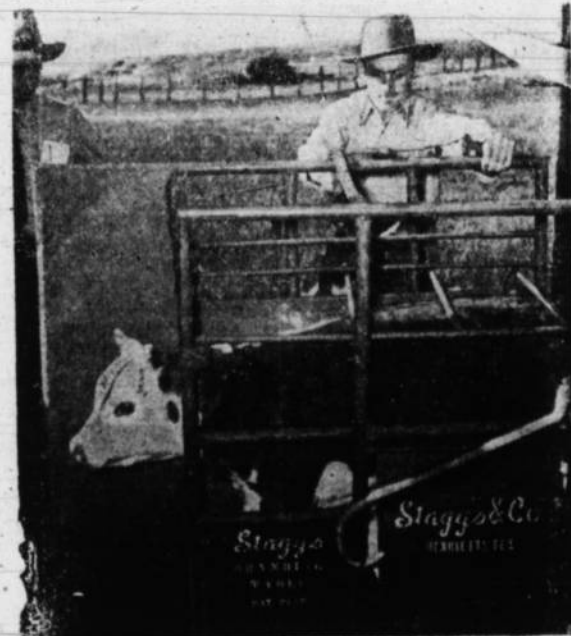

School News

Students Union Elections
Elections were held at the high school on Monday of this week and the following officers were elected to the executive of the Students Union for the current term: President, Arthur Chell (Grade 11); Vice-president, Ralph Walker (Grade 12); Secretary, Betty Hilz (Grade 11); Treasurer, Elaine Love (Grade 11). The Grade 11 students have taken precedence over the Grade 12 students in the guidance of Students Union affairs for the year 1947-48.

The visit of the ministers will take place every two weeks, the first being Tuesday of this week from 9.40 to 10 a.m. The instruction is biblical in character.

A lunch room club has been organized with officers as follows: William H. Taylor, president; Bobby Loose, vice-president; Helen Porter, secretary; Betty Haga, housekeeper. Helpers are appointed every two weeks, those at present being Ellen Loose and Michael Jantzie. The teachers take turns each week at supervising for a period of thirty minutes.

EXPERIMENTAL FARMS SERVICE HAS BIG ROLE

Canada's experimental farms' service plays an important part in the life of the district in which they are located. Demonstrated at the Kynberries, Alta., field day was a new type branding table which eliminates need for roping a calf and hauling it in to the branding fire. Calf simply walks down a chute into the vertical table, which is then locked and tilted to a horizontal position. Branding, inoculating, dehorning, etc., are then done with the calf held motionless. Range station boss Harry Hargrave claimed that calves were branded with no trace of distress the next day.

ROBERT C. MUNRO EDITOR

WE NEED A BOARD OF TRADE

A movement is now under way in Vulcan to re-organize the Board of Trade and we believe this movement deserves the support of every businessman in town and every farmer who is interested in seeing his town go ahead.

The argument can be advanced that Vulcan

already has enough organizations, but it only takes a little thought to realize that there is no organization in town able to do the work a good, live Board of Trade can do.

A spokesman for the Aldersyde line is needed and, with Vulcan as the largest centre of population on this line, a Vulcan Board of Trade could well become that spokesman. A Board of Trade is generally recognized as a truly representative body, and the prestige attached to a Board of Trade or Chamber of Commerce can be gained by no other organization, no matter how active it is in working for the welfare of the town and district. There is work to be done by a Board of Trade on projects that affect not only Vulcan but every town on the Aldersyde line. And no less important is the work that can be done in publicizing Vulcan as a good place to live and a good place to trade, and in actually making it a better town in these respects.

We advocate the formation of an active, non-political Board of Trade, and urge every far-sighted businessman and farmer of this community to give it his wholehearted support. A strong Board of Trade can be a powerful factor in the betterment of the town and district. Vulcan can and should have such a Board, working for the benefit of townspeople and farmers—for the benefit of the district as a whole.

Pertinent Topics Discussed by H.C.

Britain's traditionally free press is threatened with censorship. The Institute of Journalism has censored rationing of newspaper and will oppose nationalization of newspapers.

A Scottish woman put the case

succinctly against socialism in Britain. In fact what she said was "We now own the Bank of England, but have less money. We own the coal mines, but we have less coal; we own the railways, but often cannot get on the trains or find seats in them". There is one thing the Socialists won't own. They won't own that they are, or were, wrong at any stage of the game.

The British Minister of Food announces that he is arranging for ships to follow the whaling fleet

and bring to England the whales usually thrown into the discard. Whale steak is said to be more like meat than fish. Anyway, John Bull can take it. If there is any blubber coming from any source it won't be from him.

Hon. Mr. Howe, in a recent speech criticized the Socialist government but now says it was not intended as criticism. What he said is perfectly true, but it was not discreet for him to say it. He knows how his own leader would feel if a member of the British government had said something derogatory to the King government.

"I know of no country in the world more ridden with monopolistic enterprises than Canada", said M. J. Caldwell, M.P., to a C.C.F. gathering back east. There is a law against monopolies, and the best place for him to attack them is in parliament, but if he failed to do so there, he still has a chance to direct the attention of the government to them and demand an investigation. The government will investigate and prosecute as it is now doing in connection with monopoly charges against dealers in dental supplies.

Dealing with Winston Churchill's ability to sway crowds, a writer recalls how he captivated Congress, mentioning especially his reversion to American slang in "Some Chicken! Some Neck!" It is not necessarily American or slang. A more dignified Englishman than he, over a hundred years ago, in a more dignified place than Congress—to wit, a cemetery at Stoke Poges, wrote "Some Villake, Some Mute, Some Cromwell."

Returning from a visit to those two countries an American offers to bet that Britain, though sorely beset, will recover but that France is sick unto death. No wonder. Seldom has any country been so pursued by the demon of cursed mischance. There is a photograph of Hitler dancing a jig on hearing of the fall of France, although the chief instrument of her fall was not he, but Stalin.

France was doomed the day Stalin made his treaty with Hitler, because the French Communist immediately took up the parrot cry heard elsewhere too, that this was only another capitalistic, imperialistic war, in which they could not be interested. They impregnated the services, political, naval, military, and civil with treachery and sedition until France became an easy pushover.

When Hitler attacked Russia, their mood changed. They suddenly became patriots and rushed to join the resistance movement of which many of them became leaders, and did signal service for the allied cause. That is why the Communists made such a good showing in post-war elections. There treason of 1939-40 was forgotten. Remembered only was their later record as resistance leaders. Forgotten was the fact that Russia was the moving why of their treason and

And so France is in the grip of men whose filly is not France but to Russia. They are not in office but they are in power, because they are the largest party in the state, and by familiar methods have gained control of labor unions, and can intimidate the government any time by threatening a general strike to add to the confusion they themselves created.

The finest Canadian-built helicopter has stood up to official tests and will have 60 hours of testing before being passed on. Designer is Bernard Seneer. The helicopter would fill a great need in Canada for forestry, air mail, ambulance, patrol, crop dusting and so on.

Maximum Use Of Electricity

E. B. Martin, Extension Agricultural Engineer for the Alberta Department of Agriculture says that few Alberta farmers who have electricity available make full use of it—in spite of the fact that the more kilowatt hours used the less it costs for each kilowatt hour of energy.

The number of ways in which electricity can be used on the farm is almost unbelievable. Mr. Martin estimates that of the 300 or so that are listed from time to time, 75 can be put to practical use on the average farm in this province. They will pay for themselves again and again in time and labour saved. At a cost of \$600 for installation and another \$600 for equipment, an average farm electrification unit represents an investment of \$1200. That \$1200 investment should be used to the fullest extent economically possible.

Mr. Martin cites as an example the case of two neighbors, both with the same source of power. One of them uses his electricity merely for lights in the house. He consumes, say, 20 kilowatt hours in an average month at the minimum cost of \$5.50. His neighbour, who has an electric motor on the pump, a pig brooder, a hot plate, a quarter horse-power portable on the fanning mill and bench grindstone, (as well as lights in the house, barn, pigsty, pump house, granary and shop) uses about 90 kilowatt hours in an average month. He has a bill of \$5.50 (the minimum) plus 70 kilowatt hours at two cents—or \$1.40, to give a total of \$6.90. For all this additional energy, the cost to this farmer has been \$1.40 per month.

Mr. Martin will be pleased to offer suggestions on the use of electricity on the farm, and to receive enquiries with reference to other phases of farm electrification. Address your letter to E. B. Martin, Extension Agricultural Engineer, Alberta Department of Agriculture, Edmonton.

A theory in Russia is that foreigners are not to be trusted. Adjacent Poles are rarely allowed to cross Soviet border, and there is great distrust of tourists.

CHURCH OF CHRIST

Rom. 16:16—The churches of Christ salute (welcome) you. Services at 11 a.m. and 7:30 p.m. with Bible School at 12 noon.

A Weekly Editor's Headaches

(Nanton News)

Because The News is late this
week there may be some who think
we've just been plain lazy about
getting it out. We'd like to ex-
plain the situation a little and beg
the indulgence of readers for the
space of one editorial about our-
selves.

There seems to be a general im-
pression that the people who run
newspapers, even a weekly, have
little to do unless there is a fire or
a hatchet murder to investigate
and write up luridly. Some of our
good friends think we sit around
most of the day feet on desks, hats
on the back of heads, swapping
scandalous stories about graft in
the municipal government, wife-
beaters, who is getting around the
income tax, who is selling black-
market cars, and why the highway
is so terrible. The rest of the time
it is supposed we spend in canteen
shops swapping scandalous stories
about graft, wife-beaters, etc., etc.
The paper comes out Thursdays
and we are supposed to have nothing
to do until the next Thursday.

In the first place we seldom
have time to put our feet on desks
and in the second we no sooner get
them up than the phone rings and
as it is across the office down come
the feet. Also no one on the staff
owns a hat except the editor and
that could hardly be called a hat.
And the few scandalous tales we
know are so old that no one will
listen to them anyway.

To the innocent bystander it
seems that two or three people
ought to be able to get out an
eight-page paper once a week on
time without undue exertion but
there is more to the business than
meets the eye.

Try wrestling an advertisement
from an advertiser sometime. He is
not really reluctant to invest his
money that way but he's just as
busy as you are and it takes a lot
of genuine persuasion and occasi-
onal twist to his arm to get him
to write an ad. Try sitting at a
Linotype and setting type for news
or ads for an eight page paper; it
just takes about forty hours of
steady work. Or try correcting
proofs, gathering news, writing it
up, laying out advertisements, do-
ing the bookkeeping, cleaning up
the shop, doing job printing, dis-
tributing type, setting headlines,
figuring out the income tax work-
men's compensation and unemploy-
ment insurance for employees,
cleaning type, babying two type-
setting machines that are as tem-
peramental as movie stars, and at-
tending meetings with four long-
winded speakers. Darned if we
know how we ever get round to the
coffee shop at all.

Just by way of adding a few ex-
tras in the way of jobs and con-
fusion, we got over-enthusiastic
about making changes in the office
and shop with the notion that
Monday being a holiday we could
give our minds to rearrangement
and renovating with a clear con-
science, without in any way delay-
ing or putting out an inferior pa-
per. It was a case of mistaken op-
timism and we regret that the pa-
per is somewhat late in getting
out and doubtless it will have more
than its usual quota of mistakes.
The editor's blue pencil has been
mislaid for three days and is prob-
ably under a pile of 1919 issues of
The News. In fact about the only
things we can find readily is a ton
or so of newsprint, a can of fly
spray, the drinking fountain, the
press, and a stack of day journals
from 1927 to 1935; at least that is
all that is in very plain view.

Aside from that the carpenters
are ripping the floors up under our
feet and the plaster down on our

Light Strip Down Highway

Motorists are very thankful for
the broad white or yellowish strip
down the centre of the highway
from Calgary to High River. This
is a beautiful stretch of road, the
best probably in Alberta at the
moment, but all pleasure in night
driving has been diminished by the
difficulty of driving on the unre-
lieved black surface.

Now that the centre of the high-
way is so visibly marked, the anxi-
ety in meeting oncoming cars
should be greatly relieved. Motor-
ists inclined to ramble over both
sides of the road, or who fear get-
ting off on a soft shoulder should
have no excuse now for not observ-
ing rules that make motoring safer
and easier for others.

The excellence of the Calgary-
High River highway is a snare for
motorists whose dream is speed.
They forget the limitations of tires
and all the serious mishaps which
might bring disaster not only to
themselves but to careful drivers
who might be in their vicinity.
Well, anyway that light colored
strip is going to be a big help.

heads; we keep bumping into pla-
ces where there used to be doors
and falling through places where
new doors have been cut. We've
sawdust in our hair and paint on
our elbows; we've hammering in
our ears and dust in our eyes.

That's why the paper is late this
week, and if the gas-fitters and
electricians don't get cracking it
may be late next week. We hope
not.

There have been 885 polio cases
reported in Canada, Manitoba hav-
ing 317. British Columbia has 156
Ontario the same. Alberta has had
24 cases.

Atom Materials For Hospitals

Reconstruction Minister Howe
says Canada has the biggest heavy
water atomic energy pile in the
world operating at Chalk River,
Ontario.

He says this major Canadian
atomic oven was twice as big as
the low energy pile which Britain
brought into operation last month.

He said that Canadian store is
producing radio-active isotopes in
quantity and this would be released
to open a new field of medical re-
search.

One use is as tracer elements
for studying disease. The isotopes
can be injected into the human
blood stream and followed through
the body with detectors. This
might lead to detection and cure of
cancer, because once it strikes a
cancer it centres there, serving as
a warning.

Mr. Howe said that the isotopes
"separate out" of the pile and
Canada would be in that mar-
ket at world prices. Some isotopes
have lifetime of a day, and some
ten days.

Scientists are working on meth-
ods of transforming the energy
of the atomic pile at Chalk River
into industrial uses.

A similar announcement of re-
lease of such material to the medi-
cal world has been made in United
States.

While prices on city real estate
are said to have passed their peak,
land prices still continue high.

Miss Margaret Marshall of Tor-
onto, only outside entrant in the
Atlantic City Beauty contest, came
in third for the U.S. crown of
American beauties. The prize was
won by a girl from Memphis.
There were 54 entrants. Miss Mar-
shall got \$1000 out of it.

Special Notice TO FARMERS

The Canadian Wheat Board has now given per-
mission for farmers to have their own wheat
gristed into flour. Producers' Certificates will be
issued the same as if the wheat was sold through
an elevator and Permit Books are required.

Bring Your Wheat In and Have It Milled---

Our gristing charge is 35c per bushel (sacks extra)
and you receive the flour and by-products. Your
flour can be taken out as needed.

Or . . . Exchange Your Wheat For Flour---

We allow you full elevator price for your wheat
(Grades 1, 2 or 3), plus 3c a bushel for hauling, in
exchange for flour at \$3.75 per 100 lbs. Or you can
take part payment for your load of wheat in flour
and we will buy the balance of the load for cash.

OUR FLOUR IN FULLY GUARANTEED

FALL BLADE

IMMEDIATELY BEHIND THE COMBINE

Stop Spring Run-Off

Available with shovels as above, or straight blade.
THE ONLY CULTIVATOR WITH SUFFICIENT CLEARANCE
AND PENETRATION FOR FALL WORK AFTER THE COMBINE

Convincing Proof

Read the following unsolicited letter:
Noble Cultivators, 1263-4th Ave., North,
NOBLEFORD, ALBERTA. Lethbridge, Alberta
Gentlemen: April 25, 1946.

Some time ago we made moisture tests in our fields comparing moisture penetration in fall bladed stubble fields with those that were untouched. Following are our findings:

Average of 9 tests flax stubble fall bladed—27 in. moisture.

Average of 9 tests flax stubble not fall bladed—21 in. moisture.

Average of 9 tests wheat stubble fall bladed—25 in. moisture.

Average of 9 tests wheat stubble not fall bladed—19 in. moisture.

These tests were all made on level ground and I am sure if the ground had been rolling, or if there had been any heavy downpour of rain in the fall, the difference in favor of the fall-blading would have been even greater.

Fall blading has proven very beneficial in conserving moisture. We have done it now for four years and find similar results each spring. One year we had up to 13 inches more moisture in bladed than in unbladed land.

Yours truly,
(Signed) CHRIS. T. WITHAGE,
Operator Dom. Experimental Sub-Station.

Aircraft can be towed by any kind of truck.

Swift-Canadian employees in six cities have gone out on strike numbering 3000 men.

J. Arthur Rank, British film magnate, has built his first theatre in North Toronto. He plans 64 theatres in Canada. He has no sidewalk queues but a spacious lobby for the box office. He has a candy bar and refreshment stand in the lobby, and theatrical designs new to this continent.

Claresholm has changed back to Standard time on August 31.

At the end of March 31, 9147, there were 115,200 Alberta families receiving \$16,186,396 in family allowances. There were 248,512 children getting the benefit, the average payment per family being \$12.98 monthly. Alberta's share is about 7% of the Dominion family allowance total of over 240 million.

Items From Bob Edwards' Inimitable "Eye Opener"

One of Bob Edwards' favorite mythical characters was Bertie Buzzard-Cholmondeley whose titled father lived at Skookingham Hall, Hants, England. Bertie just couldn't get along in the Canadian West. He tried farming in Manitoba trapping round Edmonton, newspaper editing in Leduc, but failure always overtook him. So it is a pleasure to find him at a point where he is worth \$50,000 cold cash, and ambitious to take a seat in Parliament. The High River Eye Opener of March 19, 1902, carries a cheery letter that Bertie has written to his father re election expectations.

(Being a letter from a barly made son to his father in England)
Calgary, Alberta,
March 17, 1902

Sir John Buzzard-Cholmondeley,
Skookingham Hall,
Skookingham, Hants, England.
My dear Dad:-

When last I wrote you I was running the Black Cobra distillery full blast in conjunction with my friend Courtenay. Since then I have sold out and am at present worth \$50,000. As a result of my present wealth I am resolved to return on a visit to my ancestral home in England, with honors thick upon me. With this laudable aim, I intend later to enter the Dominion of Canada parliament on the prohibition ticket. Money being plentiful my chances are excellent.

As soon as the committees of the two great parties learned that I was willing to spend \$20,000 on getting elected, they waited upon me with tears in their eyes. I would have none of them.

The prohibition ticket I am running on is a winner as the liquor would prohibit is water. My committee is composed of all the influential bartenders in the town. Hence every man who steps into a hotel will be presented with a quart of Black Cobra, with "Vote for Buzzard-Cholmondeley" blown in the bottle.

The circular which I am issuing is as follows: Fellow Citizens—In soliciting your vote I pledge my unwavering allegiance to my own personal interests. Let public men be honest in their villiany. You know and I know that if the opportunity rises for making a stake at the expense of the people I will drop on it like a bee on a posy. As a good straightforward grafter I expect to make my mark in the House. I shall always be on the side of the government so that if any horrid scandal rises, a carefully selected committee of inquiry will whitewash me and make me clean.

I am a Prohibitionist. I would prohibit the reckless use of water. Its effect on the health and habits of the community—is disastrous. Look at our interminable cases of typhoid with which our hospitals are filled, people dying who never died before, young men and women going to a watery grave. Every sample of that horrible potion, water, is alive with death dealing bacteria.

If men would only confine themselves to a good stiff rasping whisky like Black Cobra, the world would be better and healthier. Any germ that can live after a gulp of Black Cobra is a corker.

I propose to erect a beer fountain in the C.P.R. gardens and have it playing beer instead of a band.

I am in favor of abolishing the office of license inspector altogether, and appointing a water analyst, with authority to prosecute all those responsible for dispensing typhoid dope to the town.

I am in favor of rustling on the range if you can get away with it. Every appeal made to me by horse thieves will be promptly and sympathetically received. Alibis will be provided for train robbers, thugs and murderers at the bureau of the Prohibition Association, free of charge. A bottle of Black Cobra will be presented to each and every constituent tangled up in a woman scrape. Doubtful voters get two bottles instead of one. Ballot stuffers get three.

On this platform I appeal for your support. If I prove false to my promise I shall be willing to resign. Call at the committee rooms and get your bottle of Black Cobra. Respectfully,

Albert Buzzard-Cholmondeley,
Dear father, you may think I should not issue such a brutally frank statement of my policy, but I assure you the rank and file of the Canadian voting public are so exasperated with the flannelmouths who pose as saints and act as villains that they will welcome an honest man with open arms. In addition to the lure of my platform address, the glamor of my wealth, and the tapping of my beer barrel will bring hosts of friends. Money talks without a stammer in this country. We have no titles, no stars and garters, hence our worship of money.

Were I to tell the people I disapproved of graft they would instantly distrust me. When I get in my fine work at Ottawa on the rake-off pile I shall not be ashamed

Farm Work In Soviet Arctic

Dealing with agriculture in the Soviet Union, Agriculture Abroad, issued by the Economics Division Dominion Department of Agriculture, Ottawa, says in part with reference to the northern regions that farming in the Arctic Circle has about outgrown its experimental stage which began in the early 30's. Northern Russia and Siberia with its 4,000 miles of shoreline facing the Arctic Ocean from Murmansk in the west to Anadyrsk in the east, and extending southward in depth of one to two thousand miles, bears much similarity to Canada's Northwest Territories. The winters are long and cold, the summers very short and warm with long hours of sunshine.

The northern limit of 63 degrees latitude for the growing of wheat can probably be pushed back in time as far north as 67 degrees 50 minutes as a result of early ripening hardy strains developed at Khibini where the period of growth is less than three months in the year and snow covers the ground in mid-June.

A Dominion Experimental Sub-Station has been established at Whitehorse in the Yukon Territory for the purpose of studying agriculture in the far north of Canada.

Lawyers Should Set An Example

The necessity for uniform laws throughout the provinces of Canada, was stressed by W. P. J. O'Meara, assistant Undersecretary of State, at the opening in Ottawa of the conference of Commissioners for Uniformity of Legislation in Canada.

Comments the Financial Post editorially: "Mr. O'Meara and his fellow barristers are right. We certainly need uniform laws if we ever hope to have a really united nation. National commerce cannot hope to function efficiently if every province sets up its own individual rules and regulations.

"But the lawyers of Canada should set a real example in putting their own private house in order. In many cases lawyers from one province cannot practice in another without the payment of almost prohibitive fees. These provincial barriers are a real hardship, especially to the young law graduate who may have received his education in one part of Canada and desires to set up in another."

ed to face my constituents.

The beer fountain in the C.P.R. gardens at Calgary will open just one week before election day. They will think it will go on forever like the brook, but the morning after election it will be turned off. I can do as I like for five years.

So dear father, you may expect me some time this fall after I am a Canadian Member of Parliament. Did you like the case of Black Cobra I sent you? I noted in London papers that a physician had been called hurriedly to your bedside. I expect it was the Black Cobra.

Your affectionate son,
BERTIE.

BRIDAL SHOWER HONORS

Friday evening, September 19, claimed Mrs. F. Clever, Mrs. R. Bond and Mrs. George Campbell as hostesses, at the home of the former, when they entertained at a pre-nuptial shower in honor of Miss Anne Ellis, bride elect, whose marriage to A. L. (Bud) Siler, is a coming event of Sept. 30. About forty ladies were present. A dainty Corsage was presented to Miss Ellis by Mrs. Campbell.

The rooms were tastefully decorated with pink and white streamers, clusters of white bells and garden flowers. The "brides chair" carried out the same color scheme.

The "Bride's Trousseau of Yesteryears" was an amusing item on the program of entertainment.

Mrs. W. Everson and Mrs. D. Causey, dressed as bride and groom, brought in the numerous lovely gifts which were presented by Mrs. Bond to the guest of honor, with the good wishes of those assembled for her future happiness. Miss Ellis responded in well chosen words.

A delicious buffet lunch was served by the hostesses.

Mrs. W. Ellis and Mrs. E. Siler, Mothers of the bride and groom elect, respectively, shared honors at the tea urns.

Misses Christine Rose and Irene Langdale entertained at a surprise party in honor of Mrs. Dewey Greenlee, to celebrate her birthday, Tuesday evening, September 16. Mrs. Greenlee was the recipient of numerous personal gifts. Garden flowers were used as decorations in the living and dining rooms. A social evening was enjoyed and a delicious buffet lunch was served by the hostesses.

What might have been a more serious accident occurred last Friday, two miles north of Okotoks, when Mr. L. W. C. Lackey, local garage man, was driving home from Calgary. His car skidded on the slippery road, turning over twice and finally coming to rest upside down. A passing motorist assisted Mr. Lackey, then took him to Okotoks for medical attention. Five stitches were taken in his forehead to close the wound. After some repair work on his car, Mr. Lackey continued on his journey home.

Mr. P. Jacobson and Mr. and Mrs. R. Hegland were Calgary visitors for two days.

Mr. Levy Lyott of Long Beach California, former old timer of this district, is spending a few weeks here attending to farming interests.

Bob, Jack and Glen Long have taken up residence at Mount Royal College, Calgary, where they will continue their high school studies.

Friends will be sorry to hear that Mrs. Oscar Sletto is ill at her home.

Mr. John Powers, who has been visiting his mother, Mrs. J. Howerton, and Mr. Howerton, also his sister, Mrs. E. Siler, for the past few weeks, left for his home at Kalispell, Montana, on Saturday.

Mr. and Mrs. Glen Clever were visitors at Calgary during the week.

Mr. and Mrs. A. M. McGaw, of Calgary, spent a few days visiting relatives at Champion and Camangay.

Mrs. George Campbell of Calgary spent a few days visiting friends in town and district.

Mrs. C. G. Taylor was a Lethbridge visitor this week.

Mr. Ray Crane had as his house guests this week, Mr. D. Burke and 2 sons, of Calgary, son-in-law and grandsons of Mr. Crane.

F. Bouzyan, A. L. Siler and Miss A. Ellis were Calgary visitors for two days.

Mr. L. Thompson of Viroqua, Wisconsin, is visiting at the homes of L. M. Groves and Mr. and Mrs. Fred Wise for two weeks. Mr. Thompson is a brother-in-law of Mrs. Wise and Mr. Groves.

S. Passoli was a Lethbridge visitor recently.

Mr. James Wright of Taft, California is a guest at the home of his brother and sister-in-law, Mr. and Mrs. George Wright, for a few weeks.

Mr. A. MacLeod is a business visitor at Edmonton, for a few days.

Mr. and Mrs. Percy Jacobson and their two small sons left Monday for Port-Alberni, B.C., where Mr. Jacobson will go into business. Mr. Jacobson has been in the electrical business here since his discharge from the R.C.A.F. at the end of the war. The good wishes of their many friends follow them to their new home.

Karl Schauerman and Ramon Hummel, spent a few days visiting at Lethbridge.

Miss Marie Matlock was substitute teacher for Miss A. Ellis, two days last week.

Mr. and Mrs. Frank Reid, of Airdrie were visitors, for a few days, at the home of Mr. and Mrs. George Smith.

Mr. and Mrs. A. J. Gullekson had as their house guests, over the weekend, the former's father, S. B. Gullekson, and brother, E. B. Gullekson, both of Calgary.

Mr. and Mrs. Glen Clever were Lethbridge visitors recently.

Professor and Mrs. M. Taylor and small daughter, Deann, spent a few days at the home of the former's parents, Mr. and Mrs. C. G. Taylor, en route to Toronto, where Prof. Taylor is on the staff of the University of Toronto.

A hunting accident occurred here Saturday morning when Harold Fath was duck hunting at the "Eight-mile-Lake". As Mr. Fath fired, the barrel of the gun exploded in his hand, causing bad lacerations. Dr. J. G. Hardman was called and rushed him to the Camangay hospital where several stitches were necessary to close the wounds. Mr. Fath is still in hospital.

Mr. I. Granlin and Mrs. E. Burger arrived from Victoria, B.C., this week, and are guests at the home of the former's son, E. Granlin, and Mrs. Granlin.

The baseball game between the Champion club and the Hillcrest Senators, scheduled for last Sunday, at Champion, was cancelled owing to inclement weather conditions.

Mr. and Mrs. W. Wolfe, nee Helen Higgins, and baby daughter, formerly of Lethbridge, arrived this week to take up residence on their farm, three miles west of town, which they purchased this spring from D. Watkins.

Freddie Selland left on Sunday for Edmonton, where he will attend the University of Alberta.

Mr. James Groves, of Patricia is visiting at the home of his brother, Max Groves, and Mrs. Groves.

Mrs. E. Siler was a Lethbridge visitor Saturday.

Mr. F. Clever was a business visitor at Calgary, Tuesday.

Mrs. E. Winn, accompanied by her daughter and son-in-law, Mr. and Mrs. A. Klugek, all of Great Falls, Montana, were visitors at the home of Mr. and Mrs. Fred Wise.

The new slate of officers for the Champion High School Students Union is as follows: President, Lorna Edwards; Vice-president, Bill Jopling; Secretary, Edith Williams; Treasurer, Mervyn Smith. Room representatives: For Grades 9-10, Allan Buchan; for Grades 11-12, Karl Schauerman.

F. M. ANDERSON & CO. LTD.

Brief Items of Local Interest

Miss Correne Neville, who is
attending business college in Cal-
gary, spent the weekend at the
home of her parents, Mr. and Mrs.
Dave Neville.

Friends of George Hanlin, well-
known farmer of the Reid Hill
district will be pleased to learn
he is now making satisfactory
progress following an accident suffered
at his home last Thursday.
During the forenoon Mr. Hanlin
had gone to the barn to feed some
stock. While climbing a ladder to
the hay-loft he evidently slipped
and fell a distance of 12 feet.
After laying there for some time
he was finally able to make his
way to the house where Mrs. Tra-
vair, his housekeeper, put him to
bed and later in the day called
a doctor. After spending the night
in the Vulcan hospital he was
taken to a Calgary hospital for
X-Rays and further treatment. A
phone call from Calgary Sunday
afternoon assured friends that Mr.
Hanlin's injuries were not as
serious as had at first been
thought.

Mr. and Mrs. T. S. Clifford of
Vancouver, B.C. are visiting in the
district for a few weeks.

David Jantzie left on Sunday
evening for Edmonton, where he
will enroll for his first year in
Agriculture at the University of
Alberta.

Miss Jean Dunham of Drum-
heller spent the weekend at her
home in the district.

Mr. J. K. Martin of Kelowna,
B.C., is a business visitor in the
district. While in Vulcan he has
been a guest at the home of his
daughter, Mrs. Roger Middleton.

The Thigh Hill W.I. will meet
at the home of Mrs. Scotney,
Thursday, October 2nd.

Friends of Mr. J. N. Johnston,
who has been confined to a Leth-
bridge hospital for some time, will
be sorry to learn his condition is
still serious.

Mrs. Glen Dahl was a Calgary
visitor Friday last. While in the
city she visited Mrs. Jack Denbigh,
who is a patient in the Holy Cross
hospital and reports Marjorie's
hand recently hurt in an accident
on the Lommatzsch Fox Ranch near
Millarville, is improving. However,
the hand was severely injured and
will be some considerable time
healing.

Mrs. Opal Drummond spent the
weekend with relatives in Leth-
bridge.

Mr. L. F. Dawson has returned
from a holiday spent in the Crow's
Nest Pass and points on the Banff-
Windermere highway.

Mr. and Mrs. Keith Elder enter-
tained a number of friends at their
home Saturday evening, the oc-
casion marking the 22nd wedding
anniversary of the Elders and the
birthday of Mrs. Lloyd Munson,
who was one of the guests.

Miss Eileen Brown of Calgary
was a weekend visitor at the home
of her sister and brother-in-law,
Mr. and Mrs. Edith Carruthers.

Mr. and Mrs. D. G. Purdy and
family are present visiting at
the home of Mrs. Purdy's parents,
Mr. and Mrs. H. F. Krause.

George Eamor was a business
visitor to Calgary last week.

Robert Brown of Vancouver,
former well known farmer of this
district, was a recent visitor here
for a few days.

Mrs. O. B. Anderson of Leth-
bridge was a recent visitor for a
few days at the home of her
daughter, Mrs. R. C. R. Munro.

Varying luck attended local nim-
rods the first day or two of the
duck shooting season, some get-
ting their day's limit in short order
and others returning home with
just one or two. Tough road con-
ditions kept the hunters from going
out in full force.

One of the minor tragedies
caused by the heavy snowfall of
last week was the breaking of many
branches on boulevard trees and
garden shrubs. Still in full leaf,
the trees were bowed under the
weight of snow and boulevards and
streets were littered with broken
branches on Friday morning.

Donald and Allan Walker,
Donald Jantzie, Arthur Fitzpatrick
and Bob Hill are among the Vulcan
students who are now attending
the University of Alberta at Ed-
monton.

Mrs. Peggy Slater of Beverly
Hills, California, has been visiting
her cousins, Mrs. John Carruthers,
Mrs. Ross Clark and Mr. Ted
Howell.
